

NEOM Bay & New NEOM Intl. Airport (NUM/NIA)

Airport Security Strategy

NEOM's goal is to become the most livable place on Earth what includes the development of two new airport signature infrastructures NUM – NEOM Bay Airport and NIA – NEOM Intl. Airport. The Aviation Security Strategy forms a framework and detailed view on what technologies, systems and services are required to deliver the targeted security standards for both Airports. TH Airport Consulting has contributed significant portions to the strategy as part of an intl. consulting team.

Services

- Review of trends in airport security technologies & systems:
 - Security screening, access control, surveillance, detection, security control center, management, prevention and cybersecurity
- Evaluation and recommendation of security technologies and systems for the existing Neom Bay Airport and the new Neom Intl. Airport
